PROFILE

Results-driven Software Engineer and Mobile Application Developer with deep expertise in building robust, cross-platform mobile applications using Flutter. Adept at navigating the full Software Development Life Cycle (SDLC) from requirements gathering and system design through development, testing, deployment, and maintenance. Skilled in crafting pixel-perfect, responsive UIs that adapt seamlessly across device sizes and orientations, with a strong command of state management architectures to ensure predictable and maintainable application behavior. Proficient in integrating Firebase services including real-time database, authentication, and push notifications, alongside cloud storage solutions and both relational and non-relational databases. Passionate about writing clean, modular code that prioritizes performance, scalability, and an exceptional end-user experience.

SKILLS

Flutter	Dart	Firebase	Realtime DB	Cloud Storage	REST APIs	Responsive UI
Cross-platform (IOS & Android)	MVVM	State Management	Provider/Bloc	Git	GitHub	
VS Code	Android Studio					

EXPERIENCE

Intern as Frontend Developer

DartGenix

📅 03/2025 - 08/2025 📍 Rahim Yar Khan, Punjab

Six Month Experiences

- I Worked as an Intern in DartGenix Company as Frontend Developer
- Self-motivated, with a strong sense of personal responsibility.
- Worked effectively in fast paced environments.
- Skilled at working independently and collaboratively in a team environment.
- Proven ability to learn quickly and adapt to new situations.

PROJECTS

GhostVault

🔗 https://drive.google.com/file/d/1SXghYkh_SW81PjVE8Jkm0yNiAzr71-T3/view?usp=drivesdk

I developed a secure mobile app for anonymous file and note sharing with a self-destruct feature. Each item generates a unique link and QR code for controlled, temporary access. Built with Flutter and Firebase, it supports real-time storage, secure retrieval, and password-based access. Content is automatically deleted after use or expiry, ensuring privacy. The project highlights skills in secure data handling, UI design, and backend integration.

DogTranslation

Built a fun and interactive app using Flutter that allows users to record their dog's sounds and get playful translations, with a clean and responsive UI.

DoctorAppointment

Developed a mobile app that lets patients easily book, manage, and track doctor appointments. Integrated Firebase for backend support to ensure real-time data and smooth performance.

EDUCATION

Bachelor of science | Software Engineering

Khwaja Fareed University of Engineering & Information Technology

📅 09/2023 - 09/2027 📍 Rahimyar Khan, Pakistan

- In Progress
- Completed Coursework: Mobile Application Development, 2025
