

ZAHID ALI

MOBILE APPLICATION DEVELOPER

SUMMARY

I am a Flutter cross-platform mobile application developer with experience in developing responsive and user-friendly mobile apps. I have the skills to develop clean and minimalist front-end UI as well as do back-end development using Firebase and Node.js. Apart from Flutter, I also have a good experience in C++ and object-oriented programming that enables me to develop efficient and stable code. I enjoy problem-solving, learning new technologies, and producing apps that provide a hassle-free experience to users.

SKILLS

• skills

- Flutter, Dart, Firebase, Node.js, REST APIs, Bloc/Provider, Responsive UI, Git, GitHub, DSA
- C++ (OOP, Inheritance, Polymorphism, Encapsulation)
- JavaScript, MongoDB, Express.js, Tailwind (Future Goals)
-

EXPERIENCE

DartGenix

Rahim Yar Khan,
Punjab

Intern as Frontend UI Designer

03/2025 - 08/2025

Six Month Experiences

- I Worked as an Intern in DartGenix Company as Frontend UI Designer and Backend In Firebase
- Self-motivated, with a strong sense of personal responsibility.
- Worked effectively in fast paced environments.
- Skilled at working independently and collaboratively in a team environment.
- Proven ability to learn quickly and adapt to new situations.

PROJECTS

Work with Team

- Dog Translation App – Built a fun and interactive app using Flutter that allows users to record their dog's sounds and get playful translations, with a clean and responsive UI.
- Doctor Appointment App – Developed a mobile app that lets patients easily book, manage, and track doctor appointments. Integrated Firebase for backend support to ensure real-time data and smooth performance.
